

***Haplophilus subterraneus* (Shaw, 1789), a centipede (Chilopoda, Geophilomorpha) new to Norway**

Kjell Magne Olsen

Olsen, K.M. 2000. *Haplophilus subterraneus* (Shaw, 1789), a centipede (Chilopoda, Geophilomorpha) new to Norway. Norw. J. Entomol. 47, 63-64.

Four specimens of *Haplophilus subterraneus* (Shaw, 1789) were collected in the close vicinity of the compost heap of the Botanical Garden, University of Oslo at Tøyen, Oslo in 1992 and 1995. Adult specimens of both sexes were present in both years, indicating a viable population at the locality.

Key words: *Haplophilus subterraneus*, Chilopoda

Kjell Magne Olsen. Skarveløkka, N-4818 Færvik, Norway.
