

Revision of six northern species of the *Isotoma viridis* Bourlet, 1839 complex (Collembola, Isotomidae)

Arne Fjellberg

Fjellberg, A. 2003. Revision of six northern species of the *Isotoma viridis* Bourlet, 1839 complex (Collembola, Isotomidae). Norw. J. Entomol. 50, 91-98.

New diagnostic characters and an identification key is given to *Isotoma viridis* Bourlet, 1839, *I. riparia* (Nicolet, 1842), *I. caerulea* Bourlet, 1839, *I. anglicana* Lubbock, 1873, *I. mackenziana* (Hammer, 1953) n. comb., *I. arctica* Schött, 1893. Main groups may be recognised by sensillary and manual chaetotaxy in the 1st. instar juvenile.

Key words: Collembola, *Isotoma viridis*-complex, taxonomy, identification key.
