

***Corixa panzeri* (Fieber), a species new to Norway, and  
*Paracorixa concinna* (Fieber) (Hemiptera-Heteroptera,  
Corixidae), in Gjerstadvannet, Arendal**

**Dag Dolmen**

Dolmen, D. 2004. *Corixa panzeri* (Fieber), a species new to Norway, and *Paracorixa concinna* (Fieber) (Hemiptera-Heteroptera, Corixidae), in Gjerstadvannet, Arendal. Norw. J. Entomol. 51, 27-29.

Two and three specimens, respectively, of the water bugs *Corixa panzeri* and *Paracorixa concinna* were recorded from Gjerstadvannet, Tromøy in Arendal. *C. panzeri* has never before been reported from Norway, while *P. concinna* has only been recorded from a small area in the county of Øsfold. The nearest localities for *C. panzeri* to the locality in Arendal, are in NW Denmark and SW Sweden.

Key words: *Corixa panzeri*, *Paracorixa concinna*, Heteroptera, brackish water, Norway.
